

Michelle Shocked, On The Greener Side

Send me a dozen long stem roses
I tell you what I will do
I'll bend them into a crown of thorns
And send it right back to you

Your love, love, love
Don't keep me satisfied
And though I've never been there
I know it's always greener
On the greener side

Say you wanna give me a run for my money
Here's something I'm gonna admit
Now it may sound funny, but Romeo, honey
I don't want none of your

Love, love, love
Don't keep me satisfied
And though I've never been there
I know it's always greener
On the greener side

My love is like a wishing well
Your love is like a clear blue sky
Sometimes it takes a thunderstorm
To fill me when I'm dry

Your love, love, love
Don't keep me satisfied
And though I've never been there
I know it's always greener
On the greener

Your love, love, love
Don't keep me satisfied
And though I've never been there
I know it's always greener
On the greener side
