## Michelle Shocked, Sleep Keeps Me Awake

Sleep comes creeping in At four in the morning Sneaking up the stairs Shoes in her hands

Don't you know what time it is? Oh, I've been worried about you, lollie I think the least that you could do was Phone to say you'd be late

Sleep keeps me awake all night Hey, I wonder where she is right now Well, I told her if she's late to call Or don't come home at all

Don't you know what time it is? Oh, I've been worried about you, lollie I think the least that you could do was Phone to say you'd be late

Last week it was one a.m. This week is was two a.m. Last night it was three a.m. And tonight it's four a.m.

You never mind about that now You come lay down beside me, lollie Let me hold you in my arms Let me hold you in my arms Let me kiss you, kiss you, lollie Let me kiss you, kiss you, lollie Let me hold you in my arms Let me hold you in my arms
