

Michelle Wright, If I'm Over You

(mark sanders/trisha yearwood)
(track 2 - time 3:09)

I have a dream
That keeps coming back night after night
I dream I finally wake up
Wake up without you on my mind
But the sun comes up and there you are
And there's nothing I can do
But I swear someday I'm gonna make that dream come true
If I'm ever over you

And I don't know when and I don't know how
But I know I can't live like I'm living now
Gonna leave behind this hell I'm going through
If I'm ever over you

I fall asleep
Saying the same simple prayer

Lord won't you give me one day
One day without wanting him here
I haven't heard an answer yet
And it's long overdue
But I believe that sweet day will be here soon
If I'm ever over you

And I don't know when and I don't know how
But I know I can't live like I'm living now
Gonna leave behind this hell I'm going through
If I'm ever over you

And I don't know when and I don't know how
But I know I can't live like I'm living now
Gonna leave behind this hell I'm going through
If I'm ever over you
Ever over you
Ever over you
