

# Michelle Wright, One Time Around

I just realized tonight  
You're not like all the others  
Till now I never wanted love I only wanted lovers  
Now me and you have things to do  
And no time to be wrong  
'cause life is just a circle and the circle ain't that long

You get one time around  
One roll of the dice  
One walk through the garden  
One quick look at life  
The time that you loose  
Can never be found  
The world keeps turning  
You get one time around  
You get one time around

I know I can't taste it all  
There's just too many flavors  
Now you've got me thinkin' 'bout home, kids and neighbors  
Tomorrow's coming right on time  
The clock ain't gonna stop  
But it sure would make a difference if you're in my arms or not

You get one time around  
One roll of the dice  
One walk through the garden  
One quick look at life  
The time that you loose  
Can never be found  
The world keeps turning  
You get one time around  
You get one time around

And we can't go back  
And we can't see the road ahead  
But we're on the right track  
Let's make the rest of it the best of it  
'cause we only get...

One time around  
One roll of the dice  
One walk through the garden  
One quick look at life  
The time that you loose  
Can never be found  
The world keeps turning  
You get one time around  
You get one time around

You get one time around  
One roll of the dice  
One walk through the garden  
One quick look at life  
The time that you loose  
Can never be found  
The world keeps turning  
You get one time around  
You get one time around

You get one time around  
One roll of the dice  
One walk through the garden  
One quick look at life

The time that you loose  
Can never be found  
The world keeps turning
