

Michigan, Loves A Disease

Love's a disease
Oh yes I suffer
Each time
My world just falls apart
I'll pray for our souls
And the passion
That comes to heart

Love's a disease
Here in the gutter
In pain
I suffer here again
All I want is to be free
I breathe here in silence
A place where I'll have a new
start

An angel
An angel that sits next to me
Why I can't see
An angel belongs to
The shadows of the night

Love's a disease
I'm a lover
I'm fragile
Cause I've been hurt before
I will hunt and you will feed
The beast inside me
You've awakened the whole
of me

An Angel
an angel that sits next to me
Why can't I see
An angel belongs to
The shadows of the night

Leaving me here
You disarming me
I breathe with you near
You confide in me

An Angel
an angel that sits next to me
Why can't I see
An angel belongs to
The shadows of the night
