

# Mickey Harte, I Need You

i thought it was only in fairy tales  
that wishes came true  
but i beleive i might be the exception  
to that odd point of view

like sunshine in my life you've come to rescue me  
the rain clouds have gone from my heart

i thought it was almost impossible to carry through  
once was a time when i cried myself to sleep  
but now i've found you

like sunshine in my life you've come to rescue me  
the rain clouds have gone from my heart  
to set me free

i need something to hold on to  
just to get through  
to love me too  
i need you  
its true  
its true  
its true

like sunshine in my life youve come to rescue me  
the rain clouds have gone from my heart to set me free

and now i need something to hold on to  
just get me through  
to love me too  
i need you

i need something to hold on to  
just to get me through  
to love me too  
ooooohhh  
i need something too  
to hold on too  
just get me through  
love me too

i need you yeah  
i need you yeah  
i need you yeah  
i need you yeah

something to  
to hold to hold on to  
just get me through  
to love me too

i need you yeah  
i need you yeah  
i need you yeah
