

# Mickey Harte, There Must Be Love

You been talking on the telephone  
you say you're fine on your own  
there must be a resolution  
we must try to find the solution  
ooooh

there must be love left in your heart somewhere  
there must be love left in your heart cause i swear  
i left it there  
i left it there

they talk in their conversations  
we're the perfect combination  
i believe we hold the key  
the future is bright for you and me

there must be love left in your heart somewhere  
there must be love left in your cause i swear  
i left it there  
i left it there

there must be love left in your heart somewhere  
there must be love left in your heart cause i swear  
i left it there  
i left it there

there must be love  
(repeats there must be love till fade out)
