

# Mickey Harte, Total Love

Give me the simple life,  
A little paradise, its not that complicated anyway  
I can see it in your eyes, Its time to realise,  
That what we got is total love

Its total love, you can't find it everywhere  
'Cos it's true love, the kind of love we share,  
Two words, me and you, it's total love

When my world is cold, you come to warm my soul  
What's that something that you give to me  
Give me my sanity, easy now to see,  
That what we got is total love.

Its total love, you can't find it everywhere  
'Cos it's true love, the kind of love we share,  
Two words, me and you, it's total love.

Its only natural, only fair, feelin needed love,  
To know you care, and like the air we breathe,  
All that we need is total love

Its total love, you can't find it everywhere  
'Cos it's true love, the kind of love we share,  
Two words, me and you,

Makin dreams come true  
Its total love

Total love x5  
Its total love, oh yea  
This is total love.
