

Mickey Harte, We've Got The World

She stands under moonlight
She touches her hair
I've dreamed of this moment
Every moment we share
And I know you're my every tomorrow
And I know that you'll always be there

Chorus

We've got the world tonight
Let's hold on together
And we've got a love that's right
So open your heart
We've got tonight
We move even closer
With hope in our eyes
'Cos love is the answer
To all the hurt, pain and lies
And I know you're my every tomorrow
And I know that you'll always be there

Chorus

We've got the world tonight
Let's hold on together
And we've got a love that's right
So open your heart
We've got tonight
Ask me why
The sun and the moon go round
Ask me why
My feet never touch the ground
Tell the truth
You take my breath away

Chorus

We've got the world tonight
Let's hold on together
And we've got a love that's right
So open your heart
We've got tonight
