

Mickey Thomas, Stand In The Fire

Whoa
Out in the street
Out in the night
Out on your own
You don't care when
They say it's tough
Makin' it through
Cos nothing can stop
This dream inside you

In this world, you take your chances
In this world, you do your best
In this life, sometimes you've got to

Chorus:
Stand in the fire
Go to the wire
Dreams and desires
They will lead you home
Whoa

Movin' ahead
Straight to the top
To get all you want
You give all you got
Puttin' it all
Out on the line
You go to the wall
But you won't mind
Cos it's a test
A test of courage
It's a game

You play to win
Gotta face some hard times
But to touch the flame
You know you've got to

Stand in the fire
Go to the wire
Dreams and desires
They will lead you
Stand in the fire
Go to the wire
Dreams and desires
They will lead you home

(guitar solo)

In this world, you take your chances
In this world, you do your best
In this life, sometimes you've got to
(stand in the fire, go to the wire)
(dreams and desire) they will lead you
Stand

Stand in the fire
Go to the wire
Dreams and desire
They will lead you
Stand in the fire
Go to the wire (in this world, you take your chances)
Dreams and desire

They will lead you
