

Midnight Juggernauts, Road To Recovery

Stars in the sky they will guide you back home
Float as the night forms a path of its own
Follow the lights they will guide you back home

[Chorus]x3
Path to discovery
Road to recovery

Laugh as we run from the world we once knew
Songs we once sung they will come back to you
Aim for the sun as it comes into view

[Chorus]x5
Path to discovery
Road to recovery
