

Midnight Kids, Those Were The Days (ft. Jared Lee)

my first kiss was everything
everyone though I was king
I didn't know what life will bring
but nothing could slow me down

had my hands right on the wheel
still remember how it feels
it was good and it was real
no nothing can slow me down

my momma showed me something
said not to walk away
said in those moments
that's when you know how much you can take
god has some crazy messes
cut then we celebrate
could reminisce forever

Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days

put your head up on my shoulder
we will dream of getting older
I still remember what I told her
no nothing can slow us down

my momma showed me something
said not to walk away
said in those moments
that's when you know how much you can take
god has some crazy messes
cut then we celebrate
could reminisce forever

Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
Those Were The Days
