

Midnight Oil, Best Of Both Worlds

You say times are tough
We've got the best of both worlds here
Things are rough
We've got the best of both worlds here
Times are tough
We've got the best of both worlds

The real world is not as calm as it appears to be from here
The old world is not as safe with the new world closing in
The great south land can be as great as the one it could have been
The one it could have been

The real world is not as calm as it appears to be from here
The small world is not as strong and the testing ground is near
The old world is not as strong as the one we could have seen
The great south land can be as great as the one it could have been
The one it could have been

We've got the best of both worlds

(Hirst/Moginie)
