

Miguel Bose, I Hold Only You

Moonlight on your face
Deep inside the night
As you sleep
Heavens sleep
I watch you in the light

Some things that I don't say
That you don't know
That I meant from the start
I breathe words into your dreams
As I sing in this night
They go straight to your heart

And I hold you
Never let me go
I hold you
I just wanted you to know
I hold only you...

The riches of the heart
You see it every day
He's in love
She's in love
In a million crazy ways...

Some things that I don't say
That you don't know
That I meant from the start
I breathe words into your dreams
As I sing in this night
They go straight to your heart

And I hold you
Never let me go
I hold you
I just wanted you to know
I hold only you...

Never let me go
I hold you
I just wanted you to know
And I hold you
Never let me go
I hold you
I just wanted you to know...
