

Miguel Bose, Living On The Wire

I've been intercontinental to find
Feeling for the heart
Every city search is haunting my mind
Feeling for the heart
Into the night, into the night
Away after you she's away
Late even flight into the night
Away after you she's away

Living on the wire
We keep in touch, we keep
We keep in touch...
Living on the wire
We keep in touch, we keep
We keep in touch...

I have seen so many faces in the fire
Images at heart
New romantic in the clutches of desire
Images apart
Into the night, into the night
Away after you she's away
Late even flight into the night
Away after you she's away

Living on the wire
We keep in touch, we keep
We keep in touch...
Living on the wire
We keep in touch, we keep
We keep in touch...

Into the night, into the night
Away after you she's away
Late even flight into the night
Away after you she's away

Living on the wire
We keep in touch, we keep
We keep in touch...
Living on the wire
We keep in touch, we keep
We keep in touch...
Living on the wire
We keep in touch, we keep
We keep in touch...
Living on the wire
We keep in touch, we touch

We touch... we touch... we touch...
