Miguel Bose, Paradise (Africa)

Out to go thru your chosen door Standing on the steps to paradise Someone else is taking on your space Standing on the steps to paradise Can't you see it's only you for me Standing on the steps to paradise All I see is how our love should be Standing on the steps to paradise Paradise, paradise, paradise...

All I'm wanting to say Is you are my paradise, paradise Dreaming day after day It would be a paradise, paradise Come back baby to me So we could taste paradise, paradise Take my hand and we'll be Forever in paradise, paradise

Come on back We've been our separate ways You know where we belong, it's paradise Without your love I'm helpless on my own Standing on the steps to paradise Paradise, paradise, paradise...

All I'm wanting to say Is you are my paradise, paradise Dreaming day after day It would be a paradise, paradise Come back baby to me So we could taste paradise, paradise Take my hand and we'll be Forever in paradise, paradise...
