

Miguel Bose, Seems Like It's Midnight Forever

We couldn't see the other side
The city hid its beauty
Seven colours in the sky
I saw them fall to earth
Those seven colours
Where did they go?

Now all I have midnight blue
The darkest hours hang together
The light and shade left with you
Seems like it's midnight forever

We couldn't take the heat too long
The air was growing heavy
I saw the rain was coming on
Then felt it fall to earth
Those seven colours
Where did they go?

Now all I have midnight blue
The darkest hours hang together
The light and shade left with you
Seems like it's midnight forever

Now all I have midnight blue
The darkest hours hang together
The light and shade left with you
Seems like it's midnight forever

Now all I have midnight blue
The darkest hours hang together
The light and shade left with you
Seems like it's midnight forever...
