

# Mika Nakashima, Joy

Ive been thinking about the way you really move me  
And Ive been thinking about the love  
Darling Ive been thinking about the way we are together  
Its me and you  
Were pulling through  
No matter what they say  
So dont you listen to them  
Theyre just jealous of what we have  
Cause its hard to do  
To find someone like you in the world  
Im going with you to anywhere  
Ive nothing to lose and not a care  
I want to be with you  
I only want to be together  
Cause you give me joy  
And being together feels so good  
I want to thank you for the chance  
To live this life like you should and you know  
That you give me joy  
Youre all I ever want to know  
So thank you  
Thank you  
You bring me my joy  
Every day youre bringing me a smile like the sunshine  
Im feeling you through and through  
The sky cant get any clearer cause youre on my mind  
I want to be with you  
I want to be with you  
I only want to be together  
Cause you give me joy  
And being together feels so good  
I want to thank you for the chance  
To live this life like you should and you know  
That you give me joy  
Youre all I ever want to know  
So thank you  
Thank you  
You bring me my joy  
Thank you  
Thank you  
You bring me my joy  
Thank you  
Thank you  
You bring me my joy
