Mikaila, My Dream Is Gone

Late at night when you're all alone I'll be there for you After dark when you're on your own I'll be your dream come true

When I lay my head to sleep You're here with me I wanna do it all over again But your love is hard to keep I'm in too deep Forever praying this night will never stop Get up, it's eight o'clock And I'm still at home, all alone My dream is gone

I just can't get you off my mind And the nights we share I can wait for you one more time Cause baby I know you'll be there

Chorus

But you're still here I'll always keep you in my heart Baby you'll be there for me Every time when I go to sleep Oooh No matter if I'm all alone I can tell you how I feel Almost like you are here for real

Chorus
