

# Mike Posner, Look What I've Become (ft. Ty Dolla

walked across ohio  
took me 50 days  
I talked to the stars  
they were happy that I came  
some days o am a genius  
others I'm sinane  
there is something gorgeous  
underneath the pain  
I can feel it lifting  
I am feeling good  
I am thinking about David  
from my oll neighborhood  
a warm and perfect white light  
in each of my cells  
I used to be a pop singer  
now I am myslef

take a little time right now  
just to count my blessings  
count my blessing  
take a little time right now  
just to count my blessings  
count my blessing

ok, even when I am falling  
there's something underneath  
something that is perfect  
it's a;most like a dream  
I know Vincent Van Gogh  
I know Princess DJ  
and David Foster Wallace  
he call me all the time  
if I think about paradise  
I'd imagine this  
no drugs or no alcohol, cuz  
I am high as it is  
and I don't want your money  
I am simple done  
I just walked away  
look what I've become

look what I've become  
look what I've become  
look what I've become  
look what I've become
