

# Mike & The Mechanics, Whenever I Stop

Whenever I stop and think about it  
There's still a question in the back of my mind  
Whenever I go, whatever I do  
You know it's with me everyday  
Whatever you say you need to understand  
I never want to know that feeling again  
No matter how hard I try to forget  
I can't help being the way I am

Well I want you to listen  
And I want you to see  
I want you back here, baby  
Just like it used to be  
Everything'll be easy  
Everything'll be fine  
Cos I'll be different this time

Whenever I stop and think about it  
There's still a question in the back of my mind  
Whenever I go whatever I do  
You know it's with me everyday  
Wherever you are I hope you understand  
I'm always waiting for a chance to make amends  
Cos I realise however I try  
I'll never find someone like you

Well I want you to listen  
And I want you to see  
I want you back here with me  
Just like it used to be  
Everything'll be easy  
Everything'll be fine  
Cos I'll be different this time

Whenever I'm lost I'll think about you  
And try to remind myself how good it can be  
Maybe in time you'll come to realise  
Just what you really mean to me

Whenever I stop and think about it  
There's still a question in the back of my mind  
Whenever I go, whatever I do  
You know it's with me everyday, yeah

Ever I stop, think about it  
There's still a question in the back of my mind  
Ever I go and whatever I do  
You know it's with me everyday

Whenever I stop, stop and think about it  
I'm always waiting for a chance to make amends  
Cos I realise however I try  
I'll never find someone like you
