

# Mike & The Mechanics, Yesterday, Today, Tomorrow

I met a man back in the future  
He was high then he was low  
You know his one consideration  
Should he come or should he go

I met a girl she wants to give me  
The gift of living just for today  
Ignore the past ignore the future  
You're only going to wish your life away - say

Chorus:

Why can't today be tomorrow  
Why must there be yesterday  
Why can't today be tomorrow  
Oh tell me why please tell me why  
Are you wishing your life away?

You know that life is no rehearsal  
You're never going to get it right  
It's inconsistent and it's imperfect  
It's going to give you sleepless nights

And then you find you wake up nervous  
For every reason under the sun  
Life is full of indecision  
It's the same for everyone - say

(Chorus)

Why can't today be tomorrow  
Why must there be yesterday - so tell me  
Why can't today be tomorrow - oh tell me  
Why can't today be tomorrow  
Are you wishing you're life away  
Why can't today be tomorrow?
