

# Mikkel Maltha, Gravity Hurts

Tension is rising  
Gravity hurts  
Everything's falling apart  
Choosing the right side  
Choosing our faith  
Choosing is what we must do  
Everyone's counting on you  
(Chorus)  
For freedom we rise  
Learn to fly  
Reach the sky  
Legend will carry you  
...thousands of miles  
Take a stand  
Hold the land  
Make sure that everyone's  
...ready to win  
Find the speed  
All you need  
Team up for battle  
We fly, fly..  
We fly  
Gravity hurts  
(Verse)  
Creatures keep coming  
Reaching within  
Stealthy they climb from the dark  
Yeah Yeah  
Searching for wisdom  
Searching for truth  
Show us the things you can do  
Maybe it's all up to you  
yeah yeah  
(Chorus 3 )
