

Miley Cyrus, Wake Up America

Oh Can you take care of her
Oh maybe you can spare her
Several moments of your consideration
Leading up to the final destination

Oh the earth is calling out,
Wanna learn what it's all about,
But everything I read global warming going green
I don't know what all this means but it seems to be saying

[Chorus]
Wake up America we're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to Wake up America
Tomorrow becomes a new day and everything you do
Matters yeah everything you do matters in some way

Stand Up I'll try if you will
Wake Up it's not a fire drill
All she needs is a little attention
Can you give her just a little attention?

Uh oh it's easy to look away
But it's getting harder day by day

Everything I read global warming going green
I don't know what all this means but it seems to be saying

[Chorus]
Wake up America we're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to Wake up America
Tomorrow becomes a new day and everything you do
Matters yeah everything you do matters in some way

I know that you don't want to hear it
Especially coming from someone so young

But in the back seat yeah they want to hear it (they want to hear it)

So come on (turn in up)
Come on (turn it up)
So come ooooooon (turn it up)

[Chorus]
Wake up America we're all in this together
It's our home so let's take care of it
You know that you want to
You know that you got to Wake up America
Tomorrow becomes a new day and everything you do
Matters yeah everything you do matters in some way
