## Milk Inc., Breathe Without You

## Chorus

Breathe without you How can I breathe without you? Breathe without you I'll never breathe without you!

Drowning in the distance from me to you Underneathe the surface All colors fade to blue

Getting through another night Slipping through another day Heaven seems so far away.

## (Chorus)x2

Swimming
Through the images you left behind reflections of the harbor
The shore I'm trying to find

Getting through another night Slipping through another day Heaven seems so far away

Maybe questions I don't get Maybe answers I regret But there's to many things I can't forget

(Chorus)x2
