

# Milk Inc, Breathe Without You

Chorus

Breathe without you

How can I breathe without you ?

Breathe without you

I'll never breathe without you !

Drowning in the distance from me to you

Underneath the surface

All colors fade to blue

Getting through another night

Slipping through another day

Heaven seems so far away.

(Chorus)x2

Swimming

Through the images you left behind

reflections of the harbor

The shore I'm trying to find

Getting through another night

Slipping through another day

Heaven seems so far away

Maybe questions I don't get

Maybe answers I regret

But there's too many things

I can't forget

(Chorus)x2
