Milky Chance, Like A Clown

I feel like a clown Wanna make you laugh Never wanna drag you down Wanna lift you up Never wanna make you cry Wanna make you feel Let's get high My feet are off the ground My head is somewhere else And my heart is way too loud Are you that kinda love Are you gonna freak me out I guess I fell in love With your ability

Let me be your clown Drive you all around Take you outta town We can fly away Our cloud is number 9 Never coming down We never coming down

Do me, do me You do me good You do me good

I feel like a clown Never wanna drag you down Never wanna make you cry Baby let's get high

I feel like a clown Wanna make you laugh Never wanna drag you down Wanna lift you up Never wanna make you cry Wanna make you feel Let's get high My feet are off the ground My head is somewhere else And my heart is way too loud Are you that kinda love Are you gonna freak me out I guess I fell in love With your ability

You do me good You do me good Do me, do me

You do me good You do me good

Baby let's get high
