

Milky Chance, Troubled Man

You see me falling through the sky
I landed here, I don't know why
Everybody acting strange
Everybody playing games
I don't wanna be here
Can you please just skip the scene
I wish that I could turn back time and leave

You better get back down
Hands over your head
Better shut your mouth
Listen what they say
Remember you don't have a chance anyway
Anyway
Troubled Man

Every place that I have found
Never had a common ground
All you did was acting strange
All you did was playing games
I don't wanna be here
Can you please just skip the scene
I wish that I could turn back time and leave

You better get back down
Hands over your head
Better shut your mouth
Listen what they say
Remember you don't have a chance anyway
Anyway
Troubled Man
