

# Milla Jovovich, More Than 4

who r u  
what r u on?  
i don't know if i really wanna know cause  
you're gonna sweep me out  
i wanna cut it away  
i wanna lose my body  
i send you my thoughts  
we bleed into entropy  
you're gonna spread me out

chorus:  
what collides?  
what r we?  
do we die?  
wake old and weak and slow  
and wonder  
did i have control?

give me a little light before i close my eyes  
and i'll see you down there  
when i open them the next time  
to see you i gotta shift my focus  
i can feel my body breathe  
but it's not air  
cause air's a dream  
we're always changing thru our mind  
you'll still know me by my smile

-chorus-

i lose my heart in wind and water  
but lost is just what can't be seen  
besides what is and what things were  
there's worlds of what was in between  
worlds folded more than 4
