

# Milla Jovovich, There Ain't No God For Dogs

I'm a good old dog  
Runnin' down the road  
Barkin' at the moon  
Runnin' Wild

I'm a good old dog  
Got nothin' to do with any of you  
Caress my head, and I'm yours for life  
I kill anybody that's hurted you

Headlights in the road  
Headlights make me blind  
I got nothin' to do with any of you  
Two great spots of light

Good old dog never knew a thing  
Wasn't no pain, just the sound of the crack  
Bones cracking beneath the tires  
Would have killed anybody that hurted you

There ain't no god for dogs (x4)
