

Millencolin, Come On

Theres something in the air tonight, its hard to define.
Theres green on every traffic light, like some kind of sign.
So if youre ready for a thrill, we do not have much time to kill.
Oh, its the right time to advance, so lets take a chance.

Come on, come on, come on,
We got to make a try.
And dream on, dream on, dream on,
Its easy as pie.
We got to make a try,
So please, come on.

Lets venture out into the light, lets get up the nerve.
And gamble if the feelings right, its what we deserve.
You got the efforts to improve, so come on and make a move (And make a move).
In your eyes I see a spark, Worth a shot in the dark.

So come on, come on, come on,
We got to make a try.
And dream on, dream on, dream on,
Its easy as pie.
We got to make a try,
So please, come on.

Now we all long for a good distraction,
To get us through the day,
Whats in the wall? We need some kind of action,
An opportunity to get away.

Now we all long for a new attraction,
Something to focus on,
To get by, to get by high so let's reach for the sky
Together we can make a try.
So come on...

Theres something in the air tonight, its hard to define.
Yeah, theres green on every traffic light, it must be a sign.

So come on, come on, come on,
We got to make a try.
(Come on, come on, come on,
We got to make a try).
And dream on, dream on, dream on,
Its easy as pie.
(Dream on, dream on, dream on,
Its easy as pie).

Come on, come on, come on,
We got to make a try.
(Come on, come on, come on,
We got to make a try).
And dream on, dream on, dream on,
Its easy as pie.
(Dream on, dream on, dream on,
Its easy as pie).

We got to make a try,
We got to make a try,
We got to make a try,
Its easy as pie.

Yeah, come on, come on, come on.
Come on, come on.
(Come on, come on, come on.

Come on, come on).
Yeah, come on, come on, come on.
Come on, come on.
