

# Millionaires, The One

Oooh baby do you know what thats worth  
Oooh Heaven is a place on Earth  
You say in Heaven love comes first  
We'll make Heaven our place on Earth  
Oooh Heaven is a place on Earth  
Oooh Heaven  
Oooh Heaven  
Oooh Heaven  
Oooh Heaven  
I thought about it and boy I swear to you  
You are the one, the one I want the night through  
From the moment we met I already knew  
We would be together 'til our lives were through  
We can hug and kiss to make it all right  
And can be together almost every single night  
Yeah I know you want, I know you want me to  
So I'll gladly come over and do what we do  
Oooh boy you make my heart beat fast  
I know that this is going to last  
When were together it feels so right  
You are the only one I think of at night  
Oooh the only one I think of at night  
Do you remember that time we had a huge fight  
We didnt even talk for a whole fourth night  
I lay in bed and cried all day  
Only you could make the sadness go away  
I had never felt that kind of pain before  
Feeling like my heart was jammed in the door  
But just the sound of your voice  
Or the touch of your hand  
Could turn my heart into a pile of sand  
I lay alone in my bed  
Thoughts of you running through my head  
I hear a noise on my window pane  
I look and see you standing in the rain  
I run downstairs and open the door  
I feel my heart falling to the floor  
I step outside and walk to you  
I know just what I have to do  
If you take my hand and hold me tight  
Ive never felt like, but it feels so right  
Leaning in for our second first kiss  
Never again will we fight like this
