

Mindy McCready, Tremble

It's like you're holding my heart in your hands
And for a moment, I can't breath
More now forever there in your eyes
Oh the way you move me, I can't help it, I

Tremble, every time that we touch
It's a shock to my soul, I'm shakin all over
Baby it's just too much
Cause your kiss, always leaves me like this
I have no defenses, lost all control
Something about your love makes me tremble
Oh I tremble

Baby for the first time I'm so completely lost
Somehow I'm right where I belong
Feel you like sunlight rushin through my veins
No one else could ever make me feel this way

I tremble, every time that we touch
It's a shock to my soul, I'm shakin all over
Baby it's just too much
Cause your kiss, always leaves me like this
I have no defenses, lost all control
Something about your love makes me tremble

I'm falling apart here in your arms cause I need you
Look at me baby, I just can't help it
I love you

Oh your kiss always leaves me like this
I have no defenses, lost all control
Something about your love makes me tremble
Oh I tremble
Oh I tremble
