

# Ministry, Death And Destruction

You go to war without a care in the world  
No matter what the cost  
Must be a reason for all this treason  
It never mattered if we won or lost

You want it  
You got it  
You break it  
You bought it

Stuck in the middle of a civil war  
Well what the fuck do you expect  
Our occupation of other nations  
Is bound to have a fuckin violent effect

You want it  
You got it  
You brake it  
You bought it

So what, you always try to go to war  
but you never went  
It doesn't matter if blood is splattered  
We make a killing off the ones that we send

You want it  
You got it  
You brake it  
You bought it
