

Ministry, Effigy

You are the only person I know
But I take you round to people who are on the go
Well you took me to a picture show
And what's the first thing I see
But them burning pictures of my head to toe, hey!

I'm not an effigy, no, no!

I asked you if you would be mad
If I packed my things and moved away to faraway land
Well I packed my things and I moved to this place
And what's the first thing I see
But them burning pictures of me in my face, hey!

I'm not an effigy, no, no!

Well I moved back from this faraway land

Walked right into a room with me mum and me dad
Well I saw my picture hanging on the wall
They tried to rip it and burn it
But it just withstood it all and I said hey!

I'm not an effigy

I'm not angry
I'm not an effigy... hey!

Well walking around this stinking town
I look up at the buildings and they get me down
Well I look to my left and then I look to my right
And then I realize they've been striking at me
Since the middle of last night, hey!

I'm not an effigy
