

# Ministry, We Believe

standing round the table  
spinning fables  
and signing autographs  
can't you hear them laugh  
ha ha ha ha ha  
in their secrecies  
they plan their strategies  
it's called hypocrisy  
and we believe

mornings  
they tell me everything  
that i need to know  
or i care to know  
well i can visualize  
the look in your eyes  
the horror  
as the plane goes down  
and the siren sounds  
we can't believe  
we can't believe

in the east where the bear is dancing  
in the west where the eagle flies  
in the middle we stand our ground  
the forces pull us down down down

tensions on both sides  
we're paralyzed and victimized  
we're terrified and petrified  
demoralized and mortified  
of genocide and suicide  
and patricide and cyanide  
we're pacified by every side  
force-fed pride and then we die for them  
we die for them

in the east where the bear is dancing  
in the west where the eagle flies  
in the middle we stand our ground  
the forces pull us down down down

we believe
