

# Minnie Riperton, Come To My Garden

(R. Rudolph)

Come to my garden let the stars fill your eyes  
Come to my garden and walk with me  
Come to my garden no more dreams filled with cries  
Come to my garden please  
I'll take your hand and lead you from these bad times  
I'll take your breath and give you mine  
I'll take your hand and lead you where the truth lies  
I'll take you with me now  
You know you've lived here all your nights; all your days  
You know you've lived here inside my mind  
You know you'll stay here for this you've lived all your life  
You know you'll stay right here
