

Minnie Riperton, Midnight At The Oasis

What happened to you?
You're not the same
Something in your head
Made a violent change
It's in your head
It's in your head
It's in your head
Filler
You call it religion
You're full of shit
Was she really worth it?
She cost you your life
You'll never leave her side
She's gonna be your wife
You call it romance
You're full of shit
Your brain is clay
What's going on? You picked up a bible
And now you're gone
You call it religion
You're full of shit
Filler
