

Minnie Riperton, You Take My Breath Away

A tree, a rock, a cloud, a sky blue day
A bird in flight, the night, the milky way
Beta gammas, silk pajamas, Sunday mornings
You take my breath away
You take it away
Hello, good-bye, a sign that I love you
A runny nose, a rose, the ocean blue
Children playing, people praying,; hallelujah
You take my breath away
You take it away
Sunny days, soft rain falling
Crystal bells I love to hear ring,
Summer days, blue birds calling
Don't look now, but love's around to stay
A tear, a smile, a laugh along the way
The world at dawn, a song, the month of May
Woody Herman, Ethel Merman, Stevie Wonder
You take my breath away
You take it away
