

# Mint Condition, Nothing Left To Say

&lt;(Verse 1):

Love was so strong  
At least at the beginning  
Who would've thought  
That there'd ever be an ending  
We had it all  
But it's like we've run into a wall

Now we try to talk  
But just end up fighting  
Try making up  
But there's just no denying  
Just ain't the same no more  
What are we putting ourselves through all this for

You talk and hear me  
But you can't communicate  
Cause you're not lis'ning  
Know these are two differnt things  
Now I see what it means to have been  
Blinded by the one you love so deeply  
Cause,

(Chorus):

The very things that made me love you  
Are the things pushing me away, now (now)  
In tears we stand here  
With Nothing Left To Say

And all I could do for you  
I should've done before (now)  
In tears we stand here  
There's Nothing Left To Say

(Verse 2):

You touch'd my heart  
And were so givin  
Spare it so free  
You drew me in it  
I fell so deep  
I could not see my life  
Without you in it

Girl you gave me  
Alot of attention  
Somehow the feeling turned  
Into crazy possessive  
It was always there  
But I didn't look deeper  
If I would've I'da seen the limits

You talk and hear me  
But you can't communicate  
Cause you're not lis'ning  
Know these are two differnt things  
Now I see what it means to have been  
Blinded by the one you love so deeply

I had my pride girl  
And you had your pain  
So deep inside you  
Wanted to have your say  
Irritated, frustrated and hurt  
Baby this is so confusing

Girl I thought this was the real thing for sure

The very things that made me love you  
Are the things pushing me away, now (away now)  
In tears we stand here  
With Nothing Left To Say

And all I could do for you (And All I Could Do For You)  
I should've done before (before, oh in tears)  
In tears we stand here (oh)  
There's Nothing Left To Say

(Bridge):  
Sayyy-ay-e-ay-ay-ay-ay (Nothin', Nothin')  
Ayy-e-ayy-ay-ay-ay (Nothinnn', Nothin')

Wish I had more words  
To try and encourage  
Us to find a way  
Cause there's Nothing Left To Say

(Chrous):  
The very things that made me love you  
are the things pushing me away now (pushing me away now, oh)  
in tears we stand here (ooh, ooh, Nothing)  
with nothing left to say

(And I Could Do For You)  
And all I could do for you  
(I Should've done before it's true)  
I should've done before (now)  
(Should've done it before baby, yeah)  
In tears we stand here (ooh, ooh!, oh)  
There's Nothing Left To Say

The very things that made me love you (Made me love you)  
Are the things pushing me away, now (Oh, In tears we stand here)  
In tears we stand here (oh, Oo, oh)  
With Nothing Left To Say (To Say-ay-ay-ay-ay-ay)

And all I could do for you (All I Could Do!)  
I should've done before (Yeah!)  
In tears we stand here (Before)  
There's Nothing Left To Say (No-Thing, Left to)  
Say-ay-ay-ay-ay

Yeah, yeah, oh, Ooo, oh, oh, oh  
And Baby there's  
Not-thing-Left-Tooo  
Sayyyyy>
