

Miraa May, Big Woman (ft. Stefflon Don)

Keep it one hunna, call my gunnas
Watch 'em run up, now I flex, yeah
Don't disrespect, you a neek just like my ex, yeah
Hmm, your man was talking to the set
But we don't rate that boy, we treat that boy just like a pet, yeah

Come spend that money don't be tight, are you alright?
Control your bitch she's getting hype, it's not polite
It's no surprise I like to fight
Don't play with me when its Henny time, yeah-yeah, yeah-yeah

But if you my friend then you can get me lit
Know I'm confident when I roll in my ends
If you really real then you cannot pretend
Me and my girls ready for anything...

Yeah-yeah, big woman, big woman
I'ma shower baby, Daddy keep me cooking
Got me cooking in the kitchen, got me filthy looking
And I show him round my city, when we roll we juggin

Who that gyal? I'm your Mudda
B I G bigger than Papa
Gyal get smoked like grabba
Them hot but you know say me hotter
One man to mi ting yeah mi don't need another
Them girls dash out call them slapper
I'm just me, I'm just Steff
Won't get leave and mi can't get tek

16 shots fo ya if you man enough
Mi nah inna nuttin if you sittin don't talk?
You must take time no you don't want rush
Turn off the night light put on the handcuff
Mi breast dem stiff yeah mi two breast firm
Want it hard and mi want it burn
Grab my neck till you feel concern
Cos me nah waaan a nerd

Big woman, big woman
I'ma shower baby, Daddy keep me cooking
Got me cooking in the kitchen, got me filthy looking
And I show him round my city, when we roll we juggin

Man talk shit 'cause they know they can't fuck me
5.2 on me I'm comfy
High cost ya dig?
Stretch your legs 'cause the coups too big
On my wrist I got the AP bloody
New Diors and my soles all bloody
Hold up wait, check the weight, price went up, and I'm on the way

House with gates, big cheques, digits near enough figure 8
Expensive wife, expensive life, of course I have some expensive taste
Roll with tugs, guard the safe, try a ting, they aim straight for face
99 times gunshot when I roll for mines...

Big woman, big woman
I'ma shower baby, Daddy keep me cooking
Got me cooking in the kitchen, got me filthy looking
And I show him round my city, when we roll we juggin

Big woman, big woman
I'ma shower baby, Daddy keep me cooking

Got me cooking in the kitchen, got me filthy looking
And I show him round my city, when we roll we juggin

Quickly realise before you miss me
Diamonds on me can't see when they diss me
I'm fully booked and busy
I'm not gone quit baby
Just watch me win
