

Miranda Lambert, Famous In A Small Town

"Famous In A Small Town"

They say life is so much sweeter
Through the telephoto lens of fame
Around here you get just as much attention
Cheerin' at the high school football game

I dreamed of going to Nashville
Put my money down and placed my bet
But I just got the first buck of the season
I made the front page of the Turnertown Gazette

Every last one, route one, rural hearts got a story to tell
Every grandma, in law, ex girlfriend
Maybe knows us just a little too well
Whether you're late for church or you're stuck in jail
Hey words gonna get around
Everybody dies famous in a small town

Tyler and Casey broke up
It ended pretty quietly
We heard he was caught red-handed with her mama
That's just what they let us all believe

Every last one, route one, rural hearts got a story to tell
Every grandma, in law, ex girlfriend
Maybe knows us just a little too well
Whether you're late for church or you're stuck in jail
Hey words gonna get around
Everybody dies famous in a small town

Baby who
Needs their faces in a magazine
Me and you
We've been stars of the town since we were 17

Let's go on down to the quick stop
Wear your yellow shades
And I'll put on my tight jeans
And we'll just spend the weekend burnin' rubber
And we'll let em point and stare in disbelief

Every last one, route one, rural hearts got a story to tell
Every grandma, in law, ex girlfriend
Maybe knows us just a little too well
Whether you're late for church or you're stuck in jail
Hey words gonna get around
Everybody dies famous in a small town
