

Miranda Sex Garden, Cover My Face

I know you're watching
You know I see
My face in your eyes
I know you see

As i run blindly
From the fear I know's not real
Cover my face
Do not watch my eyes

Let me hate for you
And hate for me
My face in your eyes
All I can see

As I run blindly
From the fear I know's not real
Cover my face
Do not watch my eyes

As I run freely
I will leave your world behind
Carry me further
Do not see my lie
