

Mis-Teeq, That Type Of Girl

Thought it was good,
I thought that we were tight,
Heard a sweet words every day and night,
You wanna give your all to me,
There's no place you would rather be,
Than with me.
How could you believe that you could tell me lies?
All I had to do is look into your eyes,
You can deny but honey you will find,
Before long (before long),
I'm gone (I'm gone).
See I'm not that type of girl that you can mess about (mess about),
I don't have that type of heart that you can just break down,
And I'm not that type of fool to be cool in playing around,
So if gon' try being that type of guy,
It's goodbye (it's goodbye).
Good love, loyalty, fidelity, trust,
You keep tellin' me it's all about us,
Boy don't think that I can't see you're playin' me,
Your love's not real, not real.
Think that you can creep, when I'm out on tour,
'Cause I'm on TV and think that I wont know (I wont know),
And I'm making cash you're knocking on my door,
No more (no more),
No more (no more).
See I'm not that type of girl that you can mess about,
I don't have that type of heart that you can just break down,
And I'm not that type of fool to be cool in playing around,
So if gon' try being that type of guy,
It's goodbye (it's goodbye).
So you'd rather be with me,
Get up on the mic the one they call the M I C.
How could you believe,
You could play me?
Break it down, we're gonna get lively.
When a guy whispers sweet things in your ear,
The motives different, it seems to appear.
Take it down, feel the atmosphere,
Move on up, move outta here!
Break it down, we're gonna get lively,
Break it down, we're gonna get lively.
See I'm not that type of girl that you can mess about,
I don't have that type of heart that you can just break down,
And I'm not that type of fool to be cool in playing around,
So if gon' try being that type of guy,
It's goodbye (it's goodbye).
