

Miss Angie, I Love Light

This rips me up, it knocks me out
It lies to me til I'm down
Darkness depart from me
Dwell with me no more
And I will not endure you
Cling to me, may I know Your triumphant ways
Cling to me, may I know Your triumphant ways
Yeah, yeah, yeah, I love light, I love light ways
You fail me not
I love light, I love light ways, You fail me not
I love light, I love light ways, You fail me not
Light be louder in my head
Rush in like a mighty wave
Run in the path of Your commands
For You have set my heart free
Cling to me, may I know Your triumphant ways
Cling to me, may I know Your triumphant ways
Yeah, yeah, yeah, I love light, I love light ways
You fail me not
I love light, I love light ways, You fail me not
I love light, I love light ways, You fail me not
