

Miss Destiny, All Your Lies

I wanna know
The way to your heart
I need to know
If you play your part

Nothing but you
I need by my side
But you don't know
How to treat me right

All your lies for...
All your lies for...
All your lies for me
You got it

All your lies for...
All your lies for...
All your lies for free

All your lies for...
All your lies for...
All your lies for me
You got it

All your lies for...
All your lies for...
All your lies for free

I wanna know
The way to your heart
I need to know
If you play your part

Nothing but you
I need by my side
But you don't know
How to treat me right

All your lies for...
All your lies for...
All your lies for me
You got it

All your lies for...
All your lies for...
All your lies for free

All your lies for...
All your lies for...
All your lies for me
You got it

All your lies for...
All your lies for...
All your lies for free
