

# Miss Montreal, Irrational

I get stuck on finding words  
My heartbeat won't let them out  
It's always so much work  
Whenever you are around

I keep cool but it's showing through  
This feelings I'm feeling for you  
Are too much it's starting to show  
I need you to know

You make me completely irrational  
And it feels insanely so natural  
Like falling hard and never landing  
Right from the start, don't understand it  
You make me completely irrational

I just want you on my skin  
And under my heavy heart  
I wanna let you in  
Every way and every part

You make me completely irrational  
And it feels insanely so natural  
Like falling hard and never landing  
Right from the start, don't understand it  
You make me completely irrational
