

# Missing Persons, Noticeable One

My image is hard My attitude heavy  
I take you out with the things that I say  
I draw the crowds and whenever I'm ready  
I've got what it takes to blow them all away

I am your social and your cultural leader  
I create the fads and make all the scenes  
You know about me from your weekly reader  
I'm on the cover of your magazines

'Cause I am one of the noticeable ones - notice me  
I am one of the noticeable ones - notice me

I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one  
I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one

My private life is scandalized by the public

But that's the price I have to pay for my fame  
And all the liggers in my way with their cute tricks  
Are getting over just by dropping my name

'Cause I am one of the noticeable ones - notice me  
I am one of the noticeable ones - notice me

I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one  
I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one

I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one  
I am one of the noticeable ones, notice me - notice me  
Notice me - noticeable one

Noticeable one - notice me  
(repeat to fade)
