

Mitchel Musso, Get out

you spin around like a broken record
it plays your name everytime the needle skips
it's been that way since the last december
i can't live like this anymore
you're stuck inside every conversation
yes i know that you're really good and gone
but i'm a slave to this obsession
how can i move on
you're in my thoughts, in my head, in my heart, in my dreams
and i wish you would stop haunting me
get out get out
i can't take it no more
breathe in breathe out
cause i die a little every time i think about you
get out get out
cause im going crazy
i scream and shout
i try everything but you're still here and i can't stop missing you
ooh yeah
the way i feel everytime you're with me
how you say it all without a word
i keep hearing time heals everything so tell me why does it still hurt
like you only just told me goodbye and i can't get you out of my mind
get out get out
i can't take it no more
breathe in breathe out
cause i die a little every time i think about you
get out get out
cause im going crazy
i scream and shout
i try everything but you're still here and i can't stop missing you
i hate to love you
i hate to let you go
you're good at leaving
but i'm no good alone
get out get out
i can't take it no more
breathe in breathe out
cause i die a little every time i think about you
get out get out
cause im going crazy
i scream and shout
i try everything but you're still here and i can't stop missing you
get out get out
breathe in breathe out
you spin around like a broken record
it plays your name everytime the needle skips skips skips skips skips skips skips skips skips
