

# Mitchel Musso, Welcome To Hollywood

I felt this time that we had something you rolled your eyes like it was nothing new you only think about  
your shades on not to show it don't pretend that you don't know its true you only think about if you  
and girl you should

Welcome to hollywood

boy, ya better live it up before it brings you down

welcome to hollywood Just got a grip on how to get around

i'm so glad i got to you know now i know what i'm suppose do you only think

about you the freindly faces i've been seeing now i know they're far from being true you only think about

you look good i guess i should

Welcome to hollywood

boy, ya better live it up before it brings you down

welcome to hollywood Just got a grip on how to get around

in your favorite tinseltown the boulevards, the neon lights i've been in love since the first sight

i wouldn't change it if i could welcome to hollywood

Welcome to hollywood

boy, ya better live it up before it brings you down

welcome to hollywood Just got a grip on how to get around

welcome to hollywood Just got a grip on how to get around dog eat dog is to be seen in the tabloid

a billioniare daddy's money, do you care welcome to hollywood
